- Cricket

## LANGUAGES

- Hindi
- English

## EXPERIENCE

01/08/2023  
-  
30/09/2023

**Internship**  
Weboin Company  
During my internship, I had the opportunity to delve into the realms of React.js, Node.js, Express.js, JavaScript, HTML, and CSS. This hands-on experience has equipped me with valuable skills and insights into web development, empowering me to tackle challenges and deliver robust solutions. Eager to continue growing and contributing to impactful projects in the field.

## PROJECTS

- Abdul's Blog**
- Developed a blog web application with admin dashboard for reading and interacting with blog posts. Implemented features for user comments and like/dislike functionality on comments. Ensured seamless user experience and efficient backend operations.
  - What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)
  - Technology used: React js, Node.js, Express, MongoDB, JWT, bcrypt, Firebase( Authentication & Storage ), React-flowbite.
- Writer's Club**
- Developed a full stack social media-like web application called "Writer's Club," designed for writers and readers to interact and engage with stories.
  - Users can read and write stories. Interactive platform where users can comment on and like stories. Reporting system for users to flag copyright-infringing content.
  - Technology used: React js, Node.js, Express, MongoDB, JWT, Firebase(Authentication & Storage).
- Moodify**
- Developed a mental health care app to help users reduce stress through games, activities, and motivational stories.
  - Key Features: mood tracking, personal journal creation, stress-relief games, and activities.
  - Ensured a user-friendly interface and smooth functionality.
  - Technology used: Java, Android SDK, Firebase.

## EDUCATION
